

Foothills Education Charter High School

Partner High School Course Options

Spring/Summer 2016

Foothills Education Charter High School is a second chance high school with a statewide attendance zone. Any student in the state of Georgia can attend Foothills if they meet age and attendance requirements. Students from partner high schools in Baldwin, Barrow, Clarke, Jackson and Madison counties may participate in special course programs offered in spring and summer pending space availability.

1. Spring 2016 Partner Course for Seniors (January to May)

- a. This is an option only when the site-directors and partner high school principals agree to the process and procedures and when room is available at Foothills.
- b. This is an option for seniors enrolled in our Partner High Schools who need 1 or 2 credits in addition to their current daily class load in order to graduate in May 2016.
- c. The enrollment of these students can only occur with a signed application from their high school counselor indicating the course(s) needed.
- d. All non-FTE students must pay the \$150.00 per course fee. (Note: School Districts can provide payment)
- e. This option is available once site directors indicate the amount of room and time that can be offered for this option. Each site director should communicate with their partner high school administration to confirm the available space.

2. Summer 2016 Partner Course for Students (June 1-July 28)

- a. This is an option only when site-directors and high school principals agree to the process and procedures and when room is available at Foothills.
- b. In some occasions, partner high schools can use computers and software during daytime school hours to allow students the opportunity to catch up on coursework that students need to get back on track. Some partner high school may use this for subject specific needs (math classes) which their students are struggling in.
- c. When space is available, students may attend school during Foothill hours (4:00-8:00 p.m. during the summer). Once again, students from partner high schools can only be enrolled with permission from their high school counselor indicating the course that each student needs to complete.

- d. All non-FTE students must pay the \$150.00 per course fee. School Districts may pay for these courses.
- e. Once again, Foothills will be open Monday-Thursday (4:00-8:00 p.m.) and will be off July 4th-8th. Space is based on the amount of room that each Foothill's site may have available. These spaces should be communicated between the site directors and partner high school administration.
