

### **Assessment Security and Reporting of Accountability**

Foothills Education Charter High School takes the ethical responsibility to provide secure and appropriate testing environments for its students very seriously. In any state or federally mandated test, Foothills expects its employees to act in accordance to specific guidelines mandated by the test and the general guidelines of the Georgia Department of Education. For every administration of a high stakes assessment the following guidelines will be followed.

- The Regional Testing Coordinator will stay current on appropriate testing rules and practice by viewing required DOE webinars and reading all manuals and memorandums associated with the test.
- All site test coordinators will be appropriately trained by the regional coordinator within a two-week period prior to the assessment window opening.
- Site test coordinators will in turn provide mirrored training to all test examiners and proctors who will be taking part in the test.
- Records of participation and sign-in sheets of each of these meetings will be maintained in a centralized location for a minimum of five years.
- Trainings at every level will include a segment covering testing ethics and ethical behavior in testing environments.
- Test materials, when on site, will be continuously maintained in a secured and locked room with access limited to only those who are functioning as site test coordinators
- Campuses will be quiet and organized on the day(s) of testing.
- Any irregularity or anomalous event taking place at a site during testing will be promptly and fully reported to the regional test coordinator.
- Irregularities involving possibly illegal or unethical actions on the part of an employee will be reported to the Georgia Professional Standards Commission.
- If the anomaly rises to the level of an irregularity, it will be promptly reported to the Georgia Department of Education.
- When test results are returned they will be disseminated to students and parents in a reasonable time frame.
- The District/School report card is provided for public access on the Foothills website at: <http://www.foothillscharter.org/departments/assessment>

### **Consequences for Violations Related to Assessment Security**

Any employee who suspects a breach in assessment security must immediately report the breach to their immediate supervisor. Failure to report suspected breaches in assessment security can have negative implications upon an employee. In addition, any investigation that results in a determination of guilt related to violations of assessment security can result in loss of employment and a report filed with the Georgia Professional Standards Commission, which may result in loss of a teacher's certificate.
